

NVR1682K

16CH (8ch PoE) NVR - NVR1682K

16 channels Network Video Recorder with 8 PoE ports for direct powering of the IP cameras. It allows high definition recording of H.264/H.265 video streams with maximum video output resolution up to 3840x2160 (4K - UHD). Thanks to PoE ports and private protocol it can automatically assign the IP address to the cameras and immediate live picture display (Plug&play function, only for the compatible camera models). The ONVIF protocol support allows also the connection to most of the cameras available in the market. The internal SATA port supports two high capacity disk drive of up to 6TB each (not included). The back-up can be done on external memories via frontal USB port or via network. The system can be even remotely controlled via browser and it allows the connection to Central Management Software (CMS included). Moreover, the P2P support, allows to make easier the network configuration and connection to Smart phone and tablet. Mouse and remote controller are included. For a correct picture display TVM24VH monitor is suggested.

CARATTERISTICHE PRINCIPALI

materiale: **aluminium**

colore: **black**

ingressi: **16 (8 PoE ports)**

uscite: **2**

ingressi allarmi: **8**

uscite allarmi: **1**

FUNZIONI

CARATTERISTICHE TECNICHE

tensione di alimentazione: **48Vdc**

assorbimento massimo di corrente: **2A**

DIMENSIONI

altezza cm **5,3**

larghezza cm **30,0**

profondità cm **22,7**
