TVT55NF

IP FISH EYE DOME CAMERA 5MP - TVT55NF

Brand new IP ONVIF camera with "fish eye" wide angle lens which allows to capture pictures at 360° from a single point. Thanks to the 5 Megapixel sensor, it allows high definition pictures, while the new H.265 compression allows the stream transmission through the network with a minimum bandwidth requirement. It has 3 independent stream that can be configured for various applications, moreover Privacy areas, e-mail sending up on event, motion detection and intelligent video analysis (line crossing detection, perimeter intrusion detection, left object detection,...) can be programmed. The particular picture control allows the management of the shooting area to display, for example, a certain point only, panorama views, PTZ views and so on. The surveillance is guaranteed even under low light conditions thanks the 3 IR leds and mechanical ICR filter removable. The cofiguration can be done via web browser or even by compatible recorder (for this reason NVR442K, NVR42K, NVR882K, NVR82K are suggested). The camera has also a uSD port for memory card enabling the local recording. Suitable also for outdoor installation (IP66).

CARATTERISTICHE PRINCIPALI

materiale: **Aluminium**

montaggio:
a parete: **ceiling / wall / desktop / tilt**

colore: **White**

ingressi allarmi: **1**

uscite allarmi: **1**

grado IP: **IP66**

tipo telecamera: **CMOS OV sensor**

risoluzione: **2160x2160 (5MP)**

sensibilità: **0.1 lux**

angolo visione: **360°**

ottica: **fixed**

focale: **1.1mm**

FUNZIONI

CARATTERISTICHE TECNICHE

tensione di alimentazione: **12Vdc/PoE**

assorbimento massimo di corrente: **700mA**

DIMENSIONI

altezza cm **6,0**

larghezza cm **12,0**
