

TVT65NK

H.265 8MP (4K) IP CAMERA - TVT65NK

Brand new IP ONVIF camera with motorized varifocal 3.3-12mm lens suitable even for outdoor installation (IP66). Thanks to STARVIS da 8 Megapixel (4K) sensor, it allows to capture highest definition (UHD) pictures, while the new H.265 compression allows to transmit video over network with reduced bandwidth request. It has 3 independent video streaming that can be adjusted for various applications, as well as privacy areas, e-mail sending up on even, motion detection and intelligent video analysis with "deep learning" (Perimeter intrusion detection, face detection, line crossing and left object detection) are available. Video capture can be done very well even in night conditions thanks to 30 IR led and ICR filter removable. Local recording is also possible by uSD port for removable memory card. Other ports: alarm 1 in / 1 out, BNC output for service monitor connection, audio 1 input / output. The remote adjustment of the motorized lens can be done by web page or by NVR, as well as the configuration of all the video parameters: it is suggested to be used in combination with NVR442K, NVR882K and NVR1682K that support plug&play installation.

CARATTERISTICHE PRINCIPALI

materiale: **Alluminium**

montaggio:
a parete: **Wall / ceiling**

colore: **White**

grado IP: **IP66**

tipo telecamera: **CMOS Sony STARVIS
1/3" sensor**

risoluzione: **3840x2160 (8MP)**

sensibilità: **0.01 lux**

ottica: **Varifocal IR corrected motorized**

focale: **3.3-12mm**

FUNZIONI

CARATTERISTICHE TECNICHE

tensione di alimentazione: **12Vcc/PoE**

assorbimento massimo di corrente: **500mA**

DIMENSIONI

altezza cm **8,4**

larghezza cm **23,9**
