AHD BULLET CAMERA FIXED LENS - TVT86FAHD/5

Mini bullet Day&Night camera with 3.6mm fixed lens and waterproof case (IP66). The new CMOS sensor 1/2.7" of 5MP resolution and the improved version of AHD technology provide pictures of highest resolution even by traditional coaxial cable trasmission. The 18 IR led's and removable ICR filter guarantee a good picture quality even in low light conditions. This camera's video output can be switched among AHD/CVI/TVI and CVBS signals. For correct picture display and recording it is recommended to use video recorder able to support up to 5MP AHD signals. Product not available any more.
