

5MP AHD DOME VARIFOCAL LENS - TVT73VFAHD/5

Day&Night dome camera with 2.8-12mm varifocal lens and waterproof case (IP66). the new capturing solution by CMOS 1/2.7" 5.0MP sensor in combination with AHD technology provides highest resolution pictures and compatibility with analogue coaxial cable video transmission. The 24 IR led and ICR filter removable guarantee optimal picture capturing even in case of low light conditions. For correct picture displaying and recording it is recommended to connect this camera to video recorders capable to support AHD 5MP signals such as HVR42/5, HVR82/5, HVR162/5. The brief guide on the below link explains how to switch the video output among AHD/TVI and analogue (for versions without dip switches selection).
